Another contract of Naftoremont-Naftobudowa

12/17/2014

The consortium Naftoremont-Naftobudowa and Polimex-Mostostal will be contractors of a new investment of the French energy group, Total.

Naftoremont-Naftobudowa, a subsidiary of Polimex-Mostostal SA, is the leader of the consortium. The order will be carried out in Belgium, in Antwerp.

The Consortium will pursue work on the installation of ARDS. The works include, among others: dismantling the old and installing new pipelines, as well as the installation of cameras, equipment and fittings. The new investment will take place in the TOTAL RAFFINADERIJ ANTWERPEN Refinery as part of the project entitled "OPTARA 2015 TOTAL Antwerp Refinery TOTAL Refining & Chemicals".

- The order is the result of many years of cooperation, the good opinion and trust in the company - Maciej Barycki says, the President of Naftoremont-Naftobudowa.

The estimated value of the contract is over 17.2 million. The contract will run from December 2014 to December 2015.

Naftoremont-Naftobudowa is one of the new companies of Polimex-Mostostal, it is the provider of repairs, modernizing and building refinery and petrochemical installations.

Polimex-Mostostal SA (www.polimex.pl) has transformed its organizational structure. The effect is a holding company Polimex-Mostostal. Two new companies have been separated from Polimex-Mostostal SA, they shall continue the PxM operations. Naftoremont-Naftobudowa operates in the chemical and petrochemical industry, and Polimex Power Industry in the energy sector.

Naftoremont-Naftobudowa has all of the powers of the existing Petrochemicals segment. It has the necessary capital and a guarantee line and the required qualifications and certificates necessary to perform the work assigned.
