Polimex-Mostostal SA has concluded a new contract worth nearly 82 million PLN.

04/20/2010

Yesterday, i.e. on 19 April 2010, Polimex-Mostostal and Park Wodny in Ruda Śląska Sp. z o.o. concluded a contract for the construction and development of a detailed design documentation for the Aqua Park – Sports and Recreation Swimming Centre – in the Kłodnica River Valley, Ruda Śląska.

The Contract is to be executed by a consortium of the following companies:

Polimex – Mostostal S.A. – Consortium leader,
'MASTER' Emil Borys sp. jawna – partner.
Polimex-Mostostal participation in the consortium amounts to 91.7 %.

Contract net value: 67,067,569 PLN (sixty-seven million sixty-seven thousand five hundred and sixtynine PLN).

Contract gross value: 81.822.434 PLN (eighty-one million eight hundred and twenty-two thousand four hundred and thirty-four PLN.)

The construction is to be completed within 15 months of contract conclusion.

Perspectives for new contracts for Polimex-Mostostal.

- At present, Polimex-Mostostal, as a consortium leader and general contractor, is anticipating in a tender for the construction of a 480 MW power unit at the Siekierki Power Plant. The Company has qualified for the tender for the construction of two power units of 900 MW each at the Opole Power Plant and the construction of a gas terminal in Świnoujście. We have also obtained information that our bid worth 800 million PLN, made with respect to the construction of a section of the S69 expressway, has been considered the most beneficial. Our portfolio of orders remains at the level of approximately 8 billion PLN, informs

President of the Management Board, Konrad Jaskóła.

- In the coming months, there will be arising further tenders for the construction and modernisation of motorways, expressways and city ring roads as well as larger contracts in the road building segment. Polimex-Mostostal wishes to continue to participate in the realisation of those investments, adds the President.

- Polish power engineering requires significant inputs on the development of new capacities and modernisation of the existing production capacities as well as power transmission lines. Manners of funding projects in the power engineering sector are becoming more and more defined, and bidding procedures are speeding up. Polimex-Mostostal intends to significantly participate in the realisation of investments in the power engineering and heating sectors, also of those based on renewable sources of energy, adds President Jaskóła.
