Polimex-Mostostal made a bid with the best price for the construction of an A-4 motorway section

07/13/2010

Today, i.e. on 13 July 2010, the Ordering Party – the General Direction for National Roads and Motorways, Branch in Rzeszów – opened the bids submitted in the tender for the construction of the A-4 motorway on the section from Rzeszów (Rzeszów East junction) to Jarosław (Wierzbna junction).

In the tender, Polimex-Mostostal, acting in the consortium together with Doprostav a.s. – Bratislava, made an bid with the best price:

- **PLN 1 billion 800 million net,**
- **PLN 2 billion 196 million gross.**

The Polimex-Mostostal participation in the consortium is 51%.

The performance period for the motorway section of 41 km will be 21 months as of the commencement of the works.

The final choice of the most beneficial bid is to be made by the Ordering Party after the examination and bid evaluation procedure where the price criterion is weighted at 90%.

- In the recent weeks our bids were designated as the most beneficial in several major tenders, like the one for the construction of the S-69 expressway worth over PLN 788 million, two sections of railway lines for over PLN 1 billion (bids by Torpol – company being a total subsidiary of Polimex-Mostostal), and for the construction of the stadium in Gliwice for over PLN 54 million. These contracts shall by singed soon, and taking into account the above mentioned bid for the construction of the A-4 motorway section, we are expecting our portfolio to

increase by over PLN 10 billion – informs Konrad Jaskóła, President of the Management Board of Polimex-Mostostal SA.
