“We are pleased to present the results of our work in the challenging year 2019. Last year was a particularly demanding time for our Company. It was a period of intensive effort marked by numerous finalizations of our key projects. It was also a time of establishing a healthy order portfolio for Polimex Mostostal Capital Group.

We recorded a satisfactory financial performance, especially when we benchmark our results against the industry. The Group’s EBITDA was positive and it amounted to PLN 96 million. The total net income of the Capital Group is circa PLN 51 million. The highest sales revenues were generated by Production and the Power Sector – approximately 78% in total.

This year we celebrate 75 years of the market presence. The Group hires almost 5,000 highly experienced and competent employees. We are and we will remain one of the leaders of the Polish construction industry and a brand recognized across Europe” - **said Krzysztof Figat, the President of the Management Board of Polimex Mostostal S.A.**

“The financial situation of our Company is stable. Our current portfolio of orders amounts to approximately PLN 4 billion and it has almost doubled since the third quarter of 2019.

At this point in time, however, we inevitably need to consider in our plans and financial goals the negative consequences of the COVID-19 pandemic which in all likelihood will affect us in the months to come. We make every effort to minimize its impact on our business activity and on the currently implemented projects” - **added Maciej Korniluk, the Vice President of the Management Board and the CFO for Polimex Mostostal S.A.**

“Last year we prioritized several operational areas: improvement of project management competences, increase in synergy between our companies and streamlining of the bidding and budgeting processes.

In the year 2019 we focused on the business activity in the key sectors both in Poland and abroad. We have established special purpose vehicles in Germany and the Netherlands to increase our operational efficiency and availability on the Western European markets.

Almost 30% of our income for the year 2019, an amount of PLN 489 million, was generated by the projects implemented abroad. Polimex Mostostal is one the major contractors for such companies as BASF, BP or ThyssenKrupp”

**- summarized Przemysław Janiszewski, the Vice President and the COO of Polimex Mostostal S.A.**
